COLLEGE CLOSED DOORS

SCHOOL FOUNDED BY PROF. J. M. HILL STRIKES A FINANCIAL "SNAG."

TOO MUCH BUSINESS ON "PAPER"

The Faculty and 130 Students Will Be Transferred to the Normal and Business College at Chillicothe.

Hill's Business college, established in January, 1900, by J. M. Hill, now of Oklahoma City, Okla., was closed today by order of O. D. Noble, business manager, owing to financial difficulties which the school was unable to overcome.

The staff of professors, including Prof. Noble, and the one hundred and thirty students of the school will be transferred to the Normal and Business college at Chillicothe, Mo., to begin work next Monday morning.

The school occupies quarters in the Porter building, at the northwest corner of Sixth street and Ohio avenue. Since its establishment 2,000 students have been enrolled in the institution, and about one-half this number are now holding good positions in different parts of the country.

According to Manager Noble, the school has been carrying too much business "on paper," while poor patronage during the past year is also attributed to the school's suspension.

The liabilities and assets of the school will be placed in the hands of an assignee, who will collect all bills and settle the school's indebtedness.

Students of the institution transferred to Chillicothe will be treated the same as in Sedalia. All scholarships will be honored, the same as here.

WILL WED NEXT MONTH

Mr. Homer J. Motz and Miss Hannah Shea by Fr. McNamee.

Homer J. Motz, a Missouri Pacific engineer, and Miss Hannah Shea, daughter of Mr. and Mrs. Patrick Shea, will be united in marriage by Rev. Fr. B. R. McNamee at the parsonage of St. Patrick's Catholic church, on East Fourth street, at 1:30 o'clock on the afternoon of Tuesday, October 27.

J. M. Dohel will serve as groomsmen and Miss Anna Gorrell as bridesmaid. Only relatives and a few intimate friends will be present at the wedding.

Immediately afterwards the couple will leave for a bridal trip in the west, and after November 10 will be at home to friends at 423 East Broadway.

Mr. Motz is a widely known and well liked young engineer, and many friends will join in extending congratulations.

His bride-to-be is one of Sedalia's most popular young ladies, with a wide circle of acquaintances, all of whom will join the Democrat-Sentinel in extending congratulations and best wishes that both may live to enjoy a long and happy married life.

In anticipation of the marriage a number of lady and gentlemen friends of the contracting parties will give a shower for Mr. Motz and Miss Shea at Dohel's hall tonight and will conclude the affair with a dance.

MACK GROWS SARCASTIC

Declares Roosevelt's Letter Will Aid Democrats.

New York, Oct. 23.—Speaking of the letter of President Roosevelt demanding that Mr. Bryan declare himself on the labor questions of the day, National Chairman Mack said yesterday that if there were any laboring man in doubt about voting for Bryan, the president's letter would convince him that he should cast his vote for the democratic ticket.

Entries in Circuit Court.

The following entries were made on the docket in the Pettis county circuit court today:

Sedalia National bank vs. Economy Steam Heating and Electric company; note; Hon. Samuel Davis, of Fifteenth judicial circuit, selected to try case. C. F. Kibby vs. J. G. Rogers, const.; reset for October 20. Runsey & Sikemeier vs. W. W.

Milloway, revival of judgment; reset for October 30.

Henry E. Bake vs. C. A. Leftwich and Caroline Leftwich, damages; judgment by consent for defendants. Lulu M. Bake vs. Henry Bake, divorce; decree for plaintiff as prayed for in amended petition, and maiden name of Lulu M. Leftwich restored.

Bryan Goes Through Delaware.

Wilmington Del., Oct. 23.—A large crowd gathered at the station here today to see Mr. Bryan. The train was late and the candidate made only a short talk. He is en route to New Jersey to make numerous speeches and will reach Newark tonight.

THE DEAL FELL THROUGH

THEN SUIT WAS BROUGHT TO RECOVER \$2,500 PAID ON \$25,000 PURCHASE.

SUIT COMES FROM HIGGINSVILLE

Bought a Spur Railway Leading to a Coal Mine, but Hitch Arose, Negotiations Off and Suit Followed.

Attorneys in the G. B. Beatty suit for \$2,500 against Joseph L. Youngs et al, which case has been on trial in the Pettis county circuit court for several days, expect to conclude their introduction of evidence today, after which the arguments will be begun.

The suit is quite interesting, and was originally filed in Lafayette county. Later, it was taken on a change of venue to Saline county, and similar proceedings were taken to bring it to Pettis county. The nature of the suit is as follows:

Defendants are trustees of the estate of the late Grove Youngs, who owns the controlling interest in a spur railroad leading from the Missouri Pacific and C. & A. depots at Higginsville to the coal mines in that vicinity.

Mr. Beatty, who is the principal owner of the Farmers' Coal Co., owning the mines, desired purchasing the controlling interest in the spur railway, and was offered the same for \$25,000, \$5,000 of which sum was to be paid at once and the balance in installments continuing for a period of two years.

Prior to the signing of the contract Mr. Beatty paid the trustees \$2,500, and later a hitch arose which resulted in the deal falling through. The suit is to recover the amount of money paid to Grove Youngs' trustees.

D. B. Holmes, of Kansas City, and Judge George F. Longan, of Sedalia, represent the plaintiff, while Judge Burden, of Lexington; Lawyer Clarence Vivian, of Higginsville, and Montgomery & Montgomery, of Sedalia, represent the defendants.

The following jurors are sitting in the case: Robert Ellis, Marion F. Wasson, Andrew Achamire, E. G. Church, G. H. Bagby, G. M. Rice, Henry Viets, Matt Mittl, W. H. Van Wagner, A. R. Ramseyer, T. L. Mounce and John Fowler.

GAVE A MATINEE EUCHRE

At the Home of Miss Brooks Yesterday Afternoon.

Miss Irene Brooks, of 217 East Sixth street, entertained the members of St. Patrick's branch No. 159, C. K. and L. of A., at her home between the hours of 2:30 and 5 o'clock yesterday afternoon at a matinee euchre.

Seventeen games of progressive euchre were played and the entertainment will be repeated at the Glass hall next Wednesday afternoon.

In a cut with Mrs. Will Norton for the first prize, a cut glass compote, Mrs. J. L. Sullivan won, and Mrs. William H. Denver won the second prize, a cut glass perfume bottle.

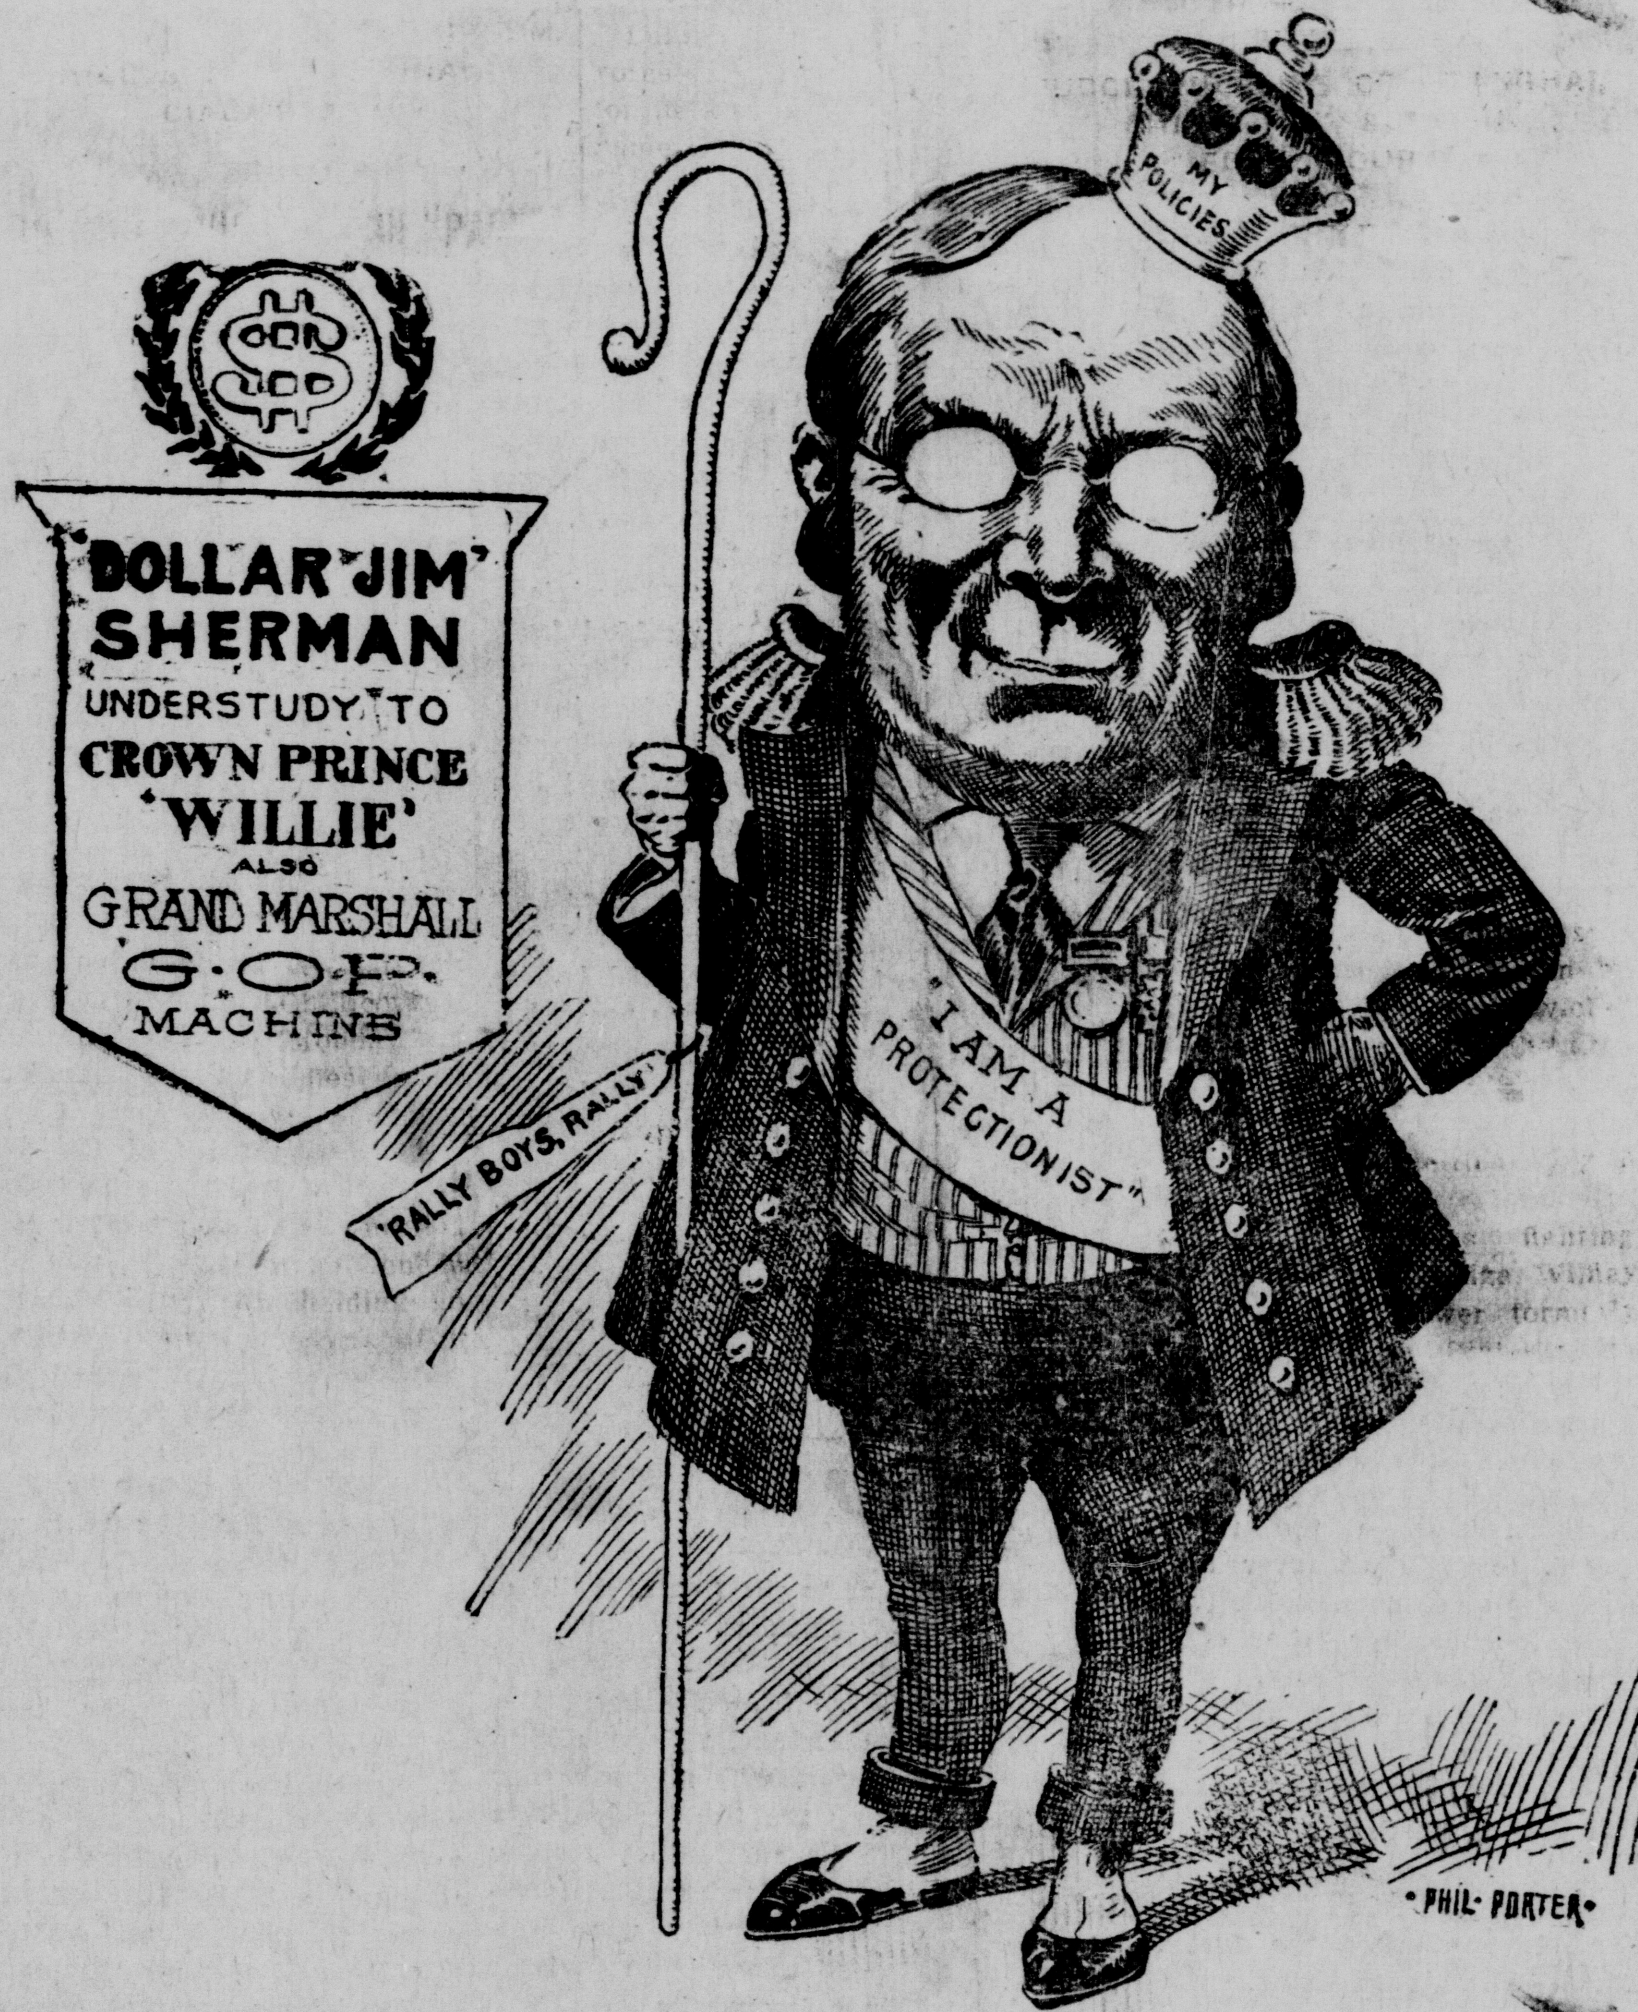

Refreshments of sandwiches, dill pickles, Saratoga chips and coffee were served.

Annual Old People's Day.

The annual Old People's day will be held at the First M. E. church next Sunday at 11 a. m. The pastor, Rev. S. S. Martin, will preach an appropriate sermon, and the singing will be a special feature.

The dinner in the church parlors and the love feast will be a delight to the old people. All over 60 will be counted as old people.

MAJOR B. B. RAY'S "HIKE"

HE AND HIS COMPANION WALKED REQUIRED 20 MILES YESTERDAY.

TWO MAJORS WITH VERY SORE FEET

The Easy Time of Chicago Army Officers Stopped by a "Hike" Order —Will Continue Today and Tomorrow.

Chicago, Oct. 23.—Major Beecher B. Ray, a personal friend of William H. Taft, and a former Missouri Pacific conductor out of Sedalia, and Major Timothy B. Kelleher, both of the department of the lakes, yesterday started on a 30-mile "hike" by order of the war department. After many humiliations they reached Diamond lake last evening. They covered twenty miles in six hours and fifty-six minutes. In Diamond Lake their attendants bathed their sore feet, gave them an alcohol rub down and put them to bed until this morning, when the tramp was resumed.

Under the terms of President Roosevelt's order the fifty miles must be covered in three days or the officers will be adjudged unfit for active duty in the regular army. The victims had their choice of going horseback or afoot and decided that if they walked their chances of ultimate recovery would be better.

Major Ray is 49 years old, five feet nine inches tall and weighs 182 pounds. Until recently his duties have consisted of skirmishing at dinners and reconnoitering through the palm garden at the Annex.

Major Kelleher is 57 years old, six feet one inch tall and weighs 179 pounds. He, too, has had easy work a long time. The two officers tried to compromise on motor cars and succeeded in warding off the inevitable for awhile, but at last the fateful morning came.

Major Kelleher had a fine collie dog which he wanted to take with him. His wife wouldn't permit it. "I won't have the dog killed, too," she said.

Capt. W. J. Glasgow, of the Thirtieth infantry, rode ahead as guide. Behind him plodded the two macrose victims. They were followed by a

squad of five infantrymen in charge of Sergeant Wagner, and an army ambulance brought up the rear.

"If Taft is elected I'll see that this fool order is rescinded," muttered Major Ray.

"It's positively disgusting," replied his companion. "We are nobody but a couple of hubees."

Will Give Halloween Party. Mrs. Charles O. Goodnight, wife of a postman, will give a Halloween party at her home, 601 East Fourteenth street, Friday night, October 30. The affair will be for members of the Loyal Rebekah lodge and others. Refreshments will be served and a program will be carried out.

LEFT A SPONGE IN BODY

BECAUSE OF THIS FACT ASKS DAMAGES IN THE SUM OF \$20,000.

SURGEONS ARE THE DEFENDANTS

Appendicitis Victim Alleges He Paid \$170 for the Operation Which Caused "Physical and Mental Pain."

Council Bluffs, Ia., Oct. 23.—Claiming that absorbent sponge or gauze was left in his abdomen after an operation for appendicitis, Charles R. Chase has brought suit in the district court for \$20,000 against A. P. Condon, S. R. Hopkins and F. W. Houghton, who, he alleges, performed the operation. The operation was performed, the plaintiff states, in June, 1908.

He asks \$144 for loss of time, \$50 alleged to have been paid to another surgeon, \$120 for hospital care, and the remainder of the \$20,000 for physical and mental pain.

F. W. Houghton, of this city, who is one of the defendants in the case, states that he merely administered the anesthetic preparatory to the operation, and did not do the surgical work. Drs. Condon and Hopkins reside in Omaha.

The Davis Case Continued.

The case of Mora Davis, charged with felonious assault, was continued until October 29 by Judge Rickman today, on application of the defendant.

DR. GODDARD FREE TODAY

SERVED SEVEN AND ONE-HALF YEARS FOR KILLING FREDERICK JACKSON.

BEEN A VAULABLE MAN FOR STATE

Left Today for a Visit With His Sister in Cass County and to Recuperate Before Settling Down Again.

Jefferson City, Mo., Oct. 23.—Dr. Jefferson D. Goddard, who shot and killed Fred Jackson, a laundryman, in Kansas City, about twelve years ago, was "dressed out" of the Missouri penitentiary today. He was sentenced to twenty years for killing Jackson, but this sentence was commuted by Governor Dockery to a term expiring today. He will go from Jefferson City to the home of his sister in Cass county to rest for some time before determining what he will do in the future.

Dr. Goddard's medical education and skill stood him in good stead in the prison. He had charge of the drug store and assisted the physician in charge in hospital work, and earned the respect and confidence of the officers of the institution by his good conduct and his readiness at all times to use his professional skill in relieving the ills of his fellow convicts.

He has been an invaluable man to the state," said Warden Matt Hall, in discussing him. "If we can save that convict is valuable to the state. He was a skilled pharmacist and a good physician and he was absolutely reliable and trustworthy."

"He leaves the prison with the best wishes of every officer and convict who came in contact with him." Dr. Goddard was received at the prison April 25, 1900. Governor Dockery commuted his sentence to ten years, with the benefit of the three-fourth law. Consequently, he has served seven and one-half years.

Death of Charles Prine.

Charles Prine, a former engineer at the Sedalia woolen mills, died at the home of his sister, Mrs. Charles Henderson, in Tipton, Mo., at 8 o'clock this morning, aged about 32 or 33 years.

His wife died about a year ago, but one or two children survive him. He belonged to Queen City council, K. and L. of S., of this city.

Bride and Groom Are Here.

Mr. J. W. Adair, engaged in the mercantile business at Biggers, Ark., and Miss Myrtle Pace, of 702 North Stewart avenue, this city, were married at Lexington, Mo., yesterday and arrived here last night to visit the bride's parents.

Mr. and Mrs. Adair will remain here until Saturday afternoon, when they will depart for Biggers to make their home.

THE WATER STILL RISING

FLOOD SITUATION IN SOUTHERN KANSAS AND OKLAHOMA CONTINUES VERY BAD.

THOUSANDS OF ACRES COVERED

At Coffeyville, Kas., Many People Have Been Compelled to Leave Their Homes to Escape Drowning.

Coffeyville, Kas., Oct. 23.—The flood situation in Southern Kansas has not improved today. North of Coffeyville the Verdigris river continued to rise and this morning lacked only a foot of reaching the mark of 1904, which was the highest in twenty-five years. Many persons have been compelled to leave their homes in North, East and Southeast Coffeyville.

All the way from Neodesha and Independence, south of Coffeyville, the Verdigris has spread out until it now covers thousands of acres of farm lands, doing vast damage to the corn in the fields. The Missouri Pacific was the only railroad able to bring a train into Coffeyville this morning. The river is still rising at Independence and Neodesha, and still more serious conditions are expected here.

No Trains at Bartlesville.

Bartlesville, Ok., Oct. 23.—The Cane river is two feet higher here now than in 1885, and rain has been falling along the valley for the past seventy-two hours. This city is cut off from the outside world except by interurban service. The railroad bridge across the Cane river is damaged and North Bartlesville is under four feet of water.

Twenty Thousand Persons Suffer. Muskogee, Ok., Oct. 23.—Twenty thousand persons shivered in the cold north wind this morning, without breakfast or fire, as the result of a washing out during the night of the gas main across the Arkansas river here. The steady downpour of rain for the last thirty-eight hours still continues. Several railroad bridges are washed out and many passenger trains are stalled near here.

STONE SATURDAY NIGHT

Missouri's Senior United States Senator Speaks at Court House

United States Senator William J. Stone will address the voters of Pettis county at the court house Saturday evening, October 24, and a cordial invitation to the public is extended. Senator Stone is one of the best speakers now in public life and always interests his hearers. At this meeting he will discuss the state and national campaign and review his public career, in the interest of his candidacy for the democratic nomination to succeed himself as senator from Missouri.

Will Attend Church in a Body.

Sedalia council No. 831, Knights of Columbus, will meet at the lodge hall, Fourth and Ohio avenue, Tuesday evening, October 27, and march to Sacred Heart church to attend forty hours' devotion in a body.

On the following night the council will give a euchre party at the lodge hall and several prizes will be awarded.

Miss Menefee Sitting Up.

Miss Lou Menefee, who for a number of weeks has been bedfast at her parents' home, suffering from typhoid fever, is improving satisfactorily and is now able to sit up.

AGAINST A MISSOURIAN

JUDGE WILFLEY, OF SHANGHAI, CHINA, NOT SUSTAINED BY COURT.

ORDERS RELEASE OF A PRISONER

The Defendant Was Sentenced by a Brother of X. P. Wilfley, Who Once Taught in the Sedalia Schools.

San Francisco, Oct. 23.—The United States circuit court of appeals rendered a decision yesterday against United States Judge Wilfley, of Shanghai, China. The court ordered that S. R. Price be released on bond of \$1,000 pending the outcome of his appeal from the three months' sentence recently imposed upon him by Judge Wilfley. Price was convicted on the charge of assault. At the time of passing sentence the Shanghai judge refused to admit Price to bail, and this is the point settled by yesterday's decision.

The federal attorneys fighting Price's plea held that Judge Wilfley had been given the power formerly exercised by the United States minister in Shanghai, who tried Americans on criminal charges and granted or refused bail as he saw fit. Price's attorneys declared that it was the practice of the federal courts to admit to bail pending appeals and they were sustained by the court.

Judge Wilfley is from St. Louis. Recently he was accused of disbaring several American lawyers without cause. The case was brought to the attention of President Roosevelt and Secretary Root, who made an investigation. Judge Wilfley was exonerated.

Judge Wilfley was associated with his brother, X. P. Wilfley, a former teacher in the Sedalia schools, in the practice of law in St. Louis. He practiced there eight years. He is a native of Audrain county, Missouri. Judge Wilfley is a graduate of Central college, Fayette, Mo., and of the Yale law school.

HOLD MEMORIAL SERVICES

Two Councils of the K. and L. of S. Sunday Afternoon.

Queen City council No. 564 and Fidelity council No. 53, K. and L. of S., will hold memorial services of the order at the First Congregational church at 3 o'clock Sunday afternoon. The Sedalia Military band will furnish music, and will render a sacred concert at the church parlors thirty minutes before the services. Rev. James Parsons will deliver the memorial address.

In addition there will be other addresses and a musical program, intermingled with reading numbers.

MUCH SNOW IN KANSAS

Four Inches Has Fallen Since Last Evening at Topeka.

Topeka, Kas., Oct. 23.—Almost constant snow has fallen over this section of Kansas since early last evening. Weather Director Jennings, of this city, reports a fall of nearly four inches, much of which has melted. Indications are fair weather and frost tonight.

Speeder Ran Into Train.

Gowrie, Iowa, Oct. 23.—Two persons were killed, one fatally injured, two seriously and two slightly hurt, last night, when a gasoline speeder smashed into a freight car on the Newton and Northwestern railroad four miles northwest of here. The dead are John Shiver and Ed Quinn, both of Kanard.

Mr. Taft Greeted By Many.

Lafayette, Ind., Oct. 23.—The reception of Judge Taft here today was another outpouring of people. The candidate was driven through streets in an automobile. He stood with bared head when the gold soldiers lined up along the public square, cheered.

Snow Falling in Leavenworth.

Leavenworth, Kas., Oct. 23.—A heavy snow began falling here early this morning and continued most of the forenoon.

NOTICE TO MAIL SUB-
SCRIBERS.

Subscribers to the Daily Democrat-Sentinel who receive their paper by mail should remember that a recent ruling of the post-office department makes it obligatory on the part of the paper to discontinue sending copies to those who are three months in arrears on their subscription.

This ruling is being followed strictly by the Democrat-Sentinel and those of its subscribers who fail to get the paper will understand why it does not come.

They should not blame the management, because it has no option in the matter, but should at once take steps to pay what is past due, together with at least three months in advance, and get the paper started again.

The Weather for Saturday.

JAPAN'S POLICY ONE OF PEACE.

The exchange of alienities between the emperor of Japan and the president of the United States through Admiral Sperry is a most happy circumstance in the relations of the two countries. They will go far toward wiping out false notions which are still held by a few skeptics in both nations. Japan's foreign policy is one of peaceful commercial expansion, and in carrying it out she is entitled to the full privileges accorded other nations with similar aims. There is no reason why this policy should bring her in conflict with any government in the world, above all, an occidental government. The words of the mikado and the imperial rescript recently gazetted by his majesty emphasizing the desire of Japan for peaceful development and enjoining on his subjects to cultivate the friendship of other nations has the ring of sincerity and it is our duty to put such a construction upon them.

These manifestations come at a time when they have an especial value as bearing upon the policy which Japan intends to pursue toward other nations. The government is committed to a plan for the peaceful extension of home and foreign commerce, realizing that only in this way can

Japan come into that close contact with other nations which will best attest its own civilization. The proclamation of this purpose and the appeal to the Japanese people will be renewed announcement of progressiveness by the empire which has already pushed forward to a high place among contemporaries.

ECHOES OF THE GLORIOUS
FOURTH.

Independence day was passed some months since, but echoes of its observance are still heard in the shape of compilations showing the injuries and deaths traceable to the holiday. The Journal of the American Medical association makes a specialty of collecting these statistics, and has just completed the work and announced the result for last Fourth of July.

It finds that throughout the United States there were seventy-six tetanus cases this year, an increase of three over 1907, but thirteen less than in 1906. These cases were distributed among twenty states, and of the cities, Chicago had the greatest number, twelve, with New York's nine in second place. Most of the tetanus cases are due to injuries by blank cartridges.

In addition to tetanus fatalities, there were 108 deaths caused by fireworks or similar means employed in celebrating the national birthday. Of the persons who died in this way, thirty were killed outright by fireworks, twenty-three by giant fire-crackers, thirty-two were burned to death in fires from fireworks, nineteen met death by explosions from powder, seven, by cannon and seven by blood poisoning, squrochets, chemicals or in some way connected with the noisy observance.

It is aptly pointed out in this connection that the figures tell their own story of suffering, pain and death, and suggest greater restrictions in the use of fireworks and explosives.

THE TAFT CAMPAIGN.

Experienced observers declare that Judge Taft's stumping experience has fallen flat; he has produced absolutely no enthusiasm among the voters, and he has said nor done nothing which will improve his chances. Republicans are unable to conceal their feeling of disappointment over the poor showing their candidate has made.

Mr. Taft's progress thus far, and the manner in which he has been received is complete vindication of those republican leaders who from the first opposed the plan of having him take to the platform. They advocated a front porch campaign, wherein the candidate should be kept in the background, and others allowed to make his canvass upon Roosevelt's record. The advocates of a stumping campaign prevailed, however, and now they are sorry that it was ever begun.

The contrast between the democratic simplicity with which Mr. Bryan has traveled and the elegance of the Taft accommodations on rail is as marked as the contrast between the size and enthusiasm of the audiences which have greeted the democratic candidate, and the dull interest of those which Mr. Taft has addressed.

While one great New York newspaper which is supporting Mr. Taft and which maintains a press association service has refused to have a correspondent with Mr. Bryan, ample accommodations are afforded on board the Taft special for the special correspondents of all the large papers. In addition, for the first time in the history of any campaign, Mr. Taft is carrying with him three press agents paid by the national committee for the purpose of influencing public opinion.

THE NEXT CONGRESS.

Representative James T. Lloyd, of this state, who is the chairman of the democratic congressional committee, is most cheerful and optimistic over the situation.

"I am greatly pleased with the progress of the congressional contests," said Mr. Lloyd. "In the middle and far western states the situation is far better than I expected and I am confident of the election of a democratic house. The reports I receive, and I am in communication with every democratic candidate for congress where there is a fight, indicate that we will elect a democratic house as well as our presidential candidates. I am receiving letters from democratic congressional candidates living in districts heretofore considered staunchly republican, who say that conditions are such this year that they will win. I feel absolutely confident of the result."

REVISION AND FRIENDS.

It is an old-time republican cry that the tariff will be revised by its friends. Representative McCall, of Massachusetts, a republican, hit the nail on the head when in referring to this cry, he said: "If the tariff can

Revision through the republican party is to come whenever the beneficiaries of a high protective tariff are willing to surrender the enormous advantages they possess, and this surrender will be made whenever human selfishness is destroyed.

Snow in Northwest Missouri.

St. Joseph, Mo., Oct. 23.—Northwest Missouri experienced their first snow storm of the season today.

BEWARE PNEUMONIA

According to mortality statistics, pneumonia is one of the most frequent and fatal diseases to which humanity is subject. Its action is so rapid that its victim is often in a precarious condition before realizing that anything more serious is the matter than a severe cold.

This is one of the dangers that may follow neglect of a cough or cold, and is therefore the best of reasons why one should check a cold at the start. A simple, inexpensive and effective remedy, that will usually break a cold overnight, is the mixture of one-half ounce of Virgin Oil of Pine compound pure, with two ounces of Glycerine and a half pint of good whisky. Take a teaspoonful every four hours. It is claimed this mixture will cure any cough that is curable, and provides a sufficient quantity to last the average family an entire year. Get the ingredients separately and mix them yourself.

In preparing this formula it is essential to use only the best quality of Glycerine and Whisky with the genuine Virgin Oil of Pine compound pure. The latter preparation is a combination of the active principles of the Pine and Sassafras trees, carefully compounded to retain the healing, health-giving properties for which these trees are justly famous. In order to insure its purity and freshness it is securely sealed in a round wooden case. The genuine Virgin Oil of Pine compound pure is prepared only in the laboratories of the Leach Chemical Co., Cincinnati, Ohio.

SYRINGES

When a syringe is required, there is no reason why you should be limited in your choice or pay an exorbitant price. Our stock includes any size and kind of syringe made.

BUT THIS DID NOT KEEP WOMAN

FROM NEW YORK.

CAME HERE WITH A MARRIED MAN

The Latter Is the 34-Year-Old Son of
a London Millionaire—He Is
Permitted to Remain
Here Temporarily.

New York, Oct. 23.—Miss Ray Bucey, the tall and willowy young Englishwoman who, with James Howard Allport, the son of a London millionaire, was detained at Ellis Island when they arrived on the Mauretania last Friday, was deported yesterday on the same vessel. Allport has been granted the privilege of appeal, and is still on Ellis Island.

Miss Bucey said: "The advice that Mr. Allport's father cabled from England concerning me are not true. I never saw Mr. Allport before in my life till we met on the Mauretania. I know that he is married and has children, but that has nothing to do with the case."

"Furthermore, I am not an actress or an adventuress. I am not a woman, but a lady of a fine old Lancashire family, and have been presented at court. I have an independent fortune of my own, and when I landed in America I had \$1,000 and jewelry worth \$20,000."

Allport is 34 years old. Instructions from his father declared that his son was not mentally responsible and had deserted a wife and family to elope with the comely young Englishwoman.

FATE RESTS WITH STORK

Speculating as to the Sex of Child of
Duchess.

Paris, Oct. 23.—Whether the Duchess de Chaulnes, who was Miss Theodora Shonts, will maintain her position among the titled aristocrats of France, or be cast into the outer darkness reserved for bourgeois commoners, depends entirely upon the sex of the child expected to be born to her within a few weeks.

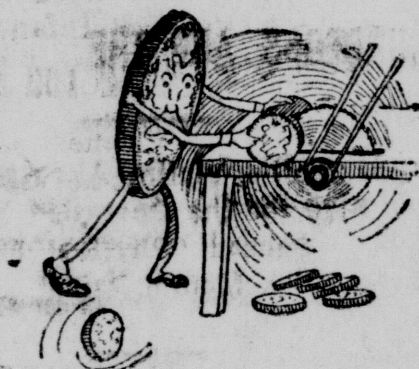

If the stork brings a boy, he will inherit the title and estate of his dead father. If the bird brings a girl, then the mother will be deprived of her title, which will pass to the family of the Duc de Luynes.

The duchess is still living in the beautiful apartment where she and her noble husband spent the first months of their married life, and where the young duke expired in the arms of his wife. Here the posthumous child will be born.

TEACHING TELEGRAPHY

SEDALIA HAS A THOROUGHLY
EQUIPPED SCHOOL AT 612-614
OHIO STREET.

DIRECT WIRES WITH KATY OFFICES

Business College Adjoining Gives
Students Practical Knowledge
of Railway Work.

Sedalia has an institution which, while young in years, is broad in its scope when its facilities for teaching and thoroughness of equipment are taken into consideration. Reference is had to the Sedalia Telegraph school, at 612-614 South Ohio street.

A representative of the Democrat-Sentinel visited the school this morning. He, like many other Sedalians, never estimated the qualifications it afforded, and was surprised at the very elegantly equipped and furnished telegraph school and business college that it has ever been his pleasure to visit. The school is furnished with golden oak tables, with places for four typewriters on each table, the student being separated from his fellow student by a glass partition. The tables are finished in the most beautiful style. Four of the latest Bunnell sounders and keys decorate each table, and wires are suspended from miniature telegraph poles distributed around the entire room. In the front of one of the large rooms is a table that will accommodate eight persons, and on this table is a Bunnell sounder that is clicking off the dispatches that are continually passing over the M. & T. railway system governing the movement of trains. Every dispatch that passes over the M. & T. wires is clicked off by this sounder, thus providing actual service to the students.

Another surprise in the shape of fixtures is a large coupon ticket case that would be an ornament to any large railway station. This ticket case is about eight feet high with roll front and about five feet wide. It was supplied with coupon tickets and close at hand is a small card ticket case, such as is used in small railway offices. All of the paraphernalia and fixtures that are necessary to give the pupil a thorough knowledge of railway station work is found in this Sedalia Telegraph school.

The school is in charge of Prof. Ben Dawson, who is known to thousands of railroad men, and to almost every citizen of Sedalia. Mr. Dawson was train dispatcher at Sedalia on the Missouri Pacific for ten years, and no man understands the railway business more thoroughly than he. Mr. Dawson explained to the reporter that there was a business college in connection with the telegraph school. Where all of the pupils first took wholesale and retail bookkeeping before they started in the railway work. This department the reporter found furnished with splendid oak tables, oak pigeonhole cases, with lock doors and all of the necessary furnishings to make the school complete, affording the very best advantages to the pupils who wish to take a business course. This, the reporter learned, was the Sedalia Business college, and was under the general management of Prof. L. C. Denton. Mr. Denton stated that he intended to give pupils who desired a business education or a shorthand education every advantage that would be necessary to enable them to successfully hold first class positions. Mr. Denton stated that while the business department was young, he already had over fifty pupils in that department and had enrolled a large number of others who would be in after election.

A new catalogue issued by the school is already in type and the press work will begin in a day or two. Every student seemed deeply interested in his work, and the reporter had the pleasure of reading a letter from one of the former students of this institution, who has charge of an office in Nebraska at \$95 per month.

A visit to this institution would pay any citizen who is interested in the advancement of Sedalia, for it shows facilities one can not appreciate the full value of except by personal inspection.

Unreasonable Hubby.

In the olden times a woman in the north of Scotland went to visit her husband, who was condemned to be hanged on the following day. The doomed man began to give his instructions to his wife preparatory to bidding her farewell, when she broke in upon the conversation and exclaimed: "By the by, John, what will I plant the tatties this year?" The unfortunate man, indignant at the indifference of his wife, exclaimed, angrily: "What need I care what ye plant them? I'm not likely to need any of them." "Hech," replied the woman, turning to the warden with a wag of her head, "our John's huffed because he's gaunt to be hanged the morn," and marched out of the cell.

Bother of Dressing Up.

Thackeray's crossing sweeper who kept his carriage was not entirely a creation of his imagination. I knew a man who took his stand daily outside a public house, fetched cabs and did odd jobs. His relatives were very well off, indeed, and they persuaded him to go and live with them. After leading a life of luxury for a couple of months he reappeared one day outside the public house. I, knowing his circumstances, asked him why he had left comfort for the cold pavement. "I had to," he said. "I stood it as long as I could, but when they wanted me to dress for dinner every time they had company I chucked it."—Referee.

FEARED DRUNKARD'S END

YOUNG SUICIDE LEAVES NOTE TO SWEETHEART, PLEADING HIS LOVE.

THOUGHT THIRST WAS INHERITED

The Son of a Missouri Banker Drinks Poison to Save a Girl From Becoming the Wife of a Drunken Husband.

Kansas City, Mo., Oct. 23.—Believing that his desire for liquor would lead him to a drunkard's grave, D. W. Devoil, 23 years old, local secretary of the Standard Paint Co., committed suicide yesterday in his room at the Lafayette hotel by taking carbolic acid.

Before swallowing the acid young Devoil wrote three letters and sealed them in envelopes, which he left on a table in the room, with a short note asking that Dr. E. A. Evans, of Conway Springs, Kas., be notified of what he had done. The letters were addressed to his father, W. C. Devoil, president of the Crawford county bank, Steelville, Mo.; to his brother-in-law, Dr. E. A. Evans, and one to Miss Pansie Campbell, of Stanton, Mo., to whom he was engaged to be married.

The letter to his sweetheart covered two pages, and, in part, was as follows:

"My Darling Pansie—(The only woman I ever loved). Sweetheart, it is sad but true, I am now gone. I want you to remember me, darling. I know you did love me and I have always tried to be just your pal. Booze has robbed me of everything, my life, money, home, and best of all, of you. It's better so, though, dearie, and while this will hurt you, it's for the best, for booze had a hold on me which I knew could not be broken, and rather than make you a drunken husband's wife I have taken this means to stop it all.

"I trust, darling, that you will have a happy life with some one and be happy, but I die with the knowledge that you loved me and that I loved you, and for that reason there is too much man in me to ask you to lead the life which you might have to if you came up here to me. That is my reason for not bringing you when I came in July. Goodbye, darling, and may your life have a happier ending than mine. Yours—Will."

In the letter to his father young Devoil showed that he had worried over his father's actions since he married the second time, and believed that he had inherited the love of liquor from his father. He said that his father had seen fit to let the advice of his second wife turn down the children of the first wife, Devoil's mother. For that reason, Devoil said, he had decided to commit suicide and thus give his father food for a little more thought.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the

child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a

pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

RUMBLINGS OF THE RAIL

THE ILLINOIS CENTRAL WILL SPEND MILLIONS ON NEW SYSTEM.

COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

Faster than a mile a minute the express electric must run if the present schedules are maintained when the Illinois Central replaces steam with electricity as the motive power on its Chicago terminal.

The cost of turning the Chicago end of the Illinois Central railroad into an electric road, the officials declare, will probably exceed greatly the estimate of \$3,500,000 made by one of the city's engineers.

The officials of the road, it developed yesterday, are figuring upon a basis of spending \$10,000,000 on the work.

The beginning, it is said, will be made next spring, and the passengers of the road can look forward to riding in brand new electric by the spring or summer of 1910.

Made the Shopmen Angry.

The announcement was posted in the Big Four shops at Bellefontaine, O., yesterday, that, beginning at once, the shops will work ten hours per day, instead of nine as now.

Some of the employees, who were incensed over the speech of General Manager Van Winkle to the 506 employees Wednesday, telling them that it would likely hurt business if Bryan should be elected, think this is a part of the scheme of the railway company to assist the election of Taft, which some of the men denounce as an attempt at coercion.

Dead in Missouri Pacific Car.

The body of a negro about 30 years old was found in Missouri Pacific car No. 1521 at Buffalo, N. Y., yesterday afternoon.

The car contained cotton and had been shipped from Pine Bluff, Ark., October 2, and consigned to J. Herbert Foster, of Providence, R. I.

The car had been transferred at St. Louis October 19 from the Missouri Pacific to the Nickel Plate railroad. The car had been sealed at Pine Bluff. The man had starved to death.

Rode Goat Awkwardly.

Roy Bradfield, an M. K. & T. brakeman, and Fred Burke, another brakeman, were initiated into Prairie Queen lodge No. 18, B. of R. T., at last night's meeting of the organization. The latter stood the test remarkably well, but "Cokey" rode the "goat" in awkward style, and when the initiation ceremonies had been concluded it required fifteen minutes to revive the victim.

Taken to St. Louis Hospital.

Joe Bowers, Jr., of the Missouri Pacific shops, had the second and third toes of his left foot mashed yesterday by a casting falling on them.

His foot was dressed at the Katy hospital, and at noon today he was sent to the Missouri Pacific hospital in St. Louis for further treatment. Joe will probably be laid up for some days.

Back From City of Mexico.

Assistant General Manager Higgins, of the Missouri Pacific, and Passenger Traffic Manager Stone have returned to St. Louis headquarters from the City of Mexico, after conferring with the Mexican lines on the St. Louis-Mexico winter train service.

Switchman Killed by Engine.

James Peeney, a Missouri Pacific switchman, 49 years old, was run over and killed by a switch engine in the yards just east of the Kansas City limits last midnight.

His home was in Armourdale and he leaves a wife and four children.

Hospital Arrivals.

Following are new arrivals at the Katy hospital.

Harry James, bridegroom, North McAlester, Okla.

C. C. Fitzgerald, bridegroom, Leroy, Kan.

Earl Vance, baggage porter, Greenville, Texas.

John Nelson, crusher laborer, Chickie, Okla.

J. E. White, car repairer, Denison, Texas.

O. C. Watkins, steam shovel laborer, Fort Worth, Texas.

E. E. Pendarvis, chief clerk freight house, Denison, Texas.

B. J. Freeman, engineer, Parsons, Kan.

Automatic Couplers.

A force of laborers is at work grading Hancock street.

C. H. Meyer, a Missouri Pacific car repairer, is ill with indigestion.

C. P. Ruggles, a Missouri Pacific round house foreman, is on the sick list.

G. H. Light, a Missouri Pacific conductor, came in from Tipton this afternoon.

H. J. Brummerhoff, a Missouri Pacific conductor, went to Kansas City this afternoon.

A. V. Laughlin, a Missouri Pacific fireman, is ill with intermittent fever and tonsillitis.

George Brindall, division engineer for the Missouri Pacific, went to Warrensburg this afternoon on business.

E. P. Ingram a Missouri Pacific machinist, is laying off on account of an attack of intermittent fever and dysentery.

W. H. Hall, assistant superintendent of telegraph for the M. K. & T., returned today from a business trip to St. Louis.

K. M. Simpson, stenographer in the general telegraph office of the Katy, resumed work today, after a few days' lay off, due to illness.

Edward Van York, of the Katy civil engineering department, returned today from a business visit at points on the north end of the road.

E. Spiedel, a Missouri Pacific engineer, running out of Bixby, Ill., has been called home by the illness of his wife with typhoid fever.

C. Y. Lawrence, a Missouri Pacific conductor, who has been running out of Kansas City on the L. & S. division, is in the city visiting his family.

E. M. Dennis, Missouri Pacific trainmaster, and Roadmaster J. M. Chandler made a business visit at points on the west end of the road today.

Joseph F. McDougall, M. K. & T. freight agent, has resumed his duties, after a necessitated lay off following an operation for gall stones, and is feeling good.

N. C. Smith, a Missouri Pacific trainman, wife and daughter, Miss Dorothy, went to Kansas City this afternoon, where Mrs. Smith and babe will visit for several days.

Official car No. 26, used by Superintendent T. S. McDowell, of the M. K. & T. of Texas, passed through here on train No. 3 this morning, en route to Dallas, Texas from St. Louis.

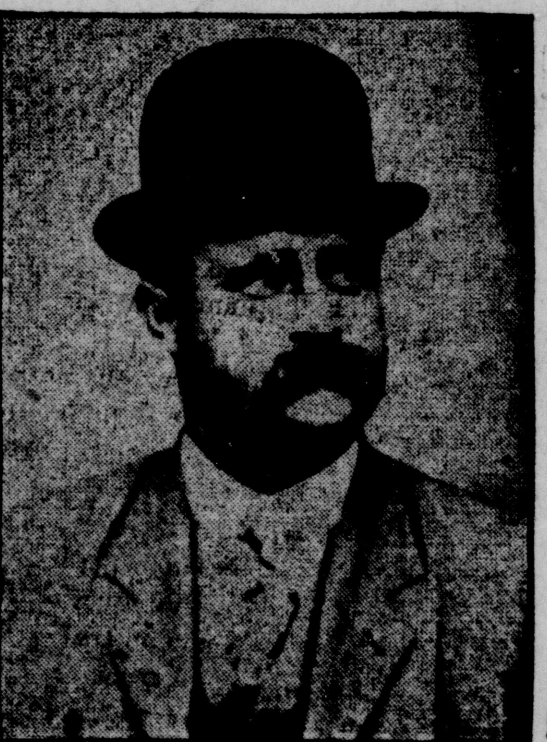

Kirk Anderson, a Missouri Pacific brakeman, returned this morning from a pleasant visit with home folks at Greeley, Colo. He went to Jefferson City this morning on business.

R. M. Garrett, resident engineer for the M. K. & T. and bride, who have been spending their honeymoon in the west, returned home last night and are making their home at 804 West Fourth street.

Denny Sullivan a conductor on the Colorado and Southern railway out of Trinidad, Colo., and wife, who are visiting Sedalia friends, will go to Excelsior Springs tonight for a few days' sojourn.

How do you value Human Life? I will furnish it for fourteen months for fifty cents, commencing November—West, the Stationer.

G. H. AYERS
The Man That Will.

Isn't there enough people in Sedalia and Pettis county to have ONE DRY law enforcement officer. The saloons have their men in the city council, on the police force, and in fact, anywhere they want them.

WHY IS SEDALIA OF THE SALOON, BY THE SALOON AND FOR THE SALOON?

Because the people vote a STRAIGHT ticket, and the Main street element would vote for a "yaller dog" if the dog offered protection, and they have learned that if a candidate says nothing AGAINST them that he is for them—they will be protected, so they all swing for their man and as the PEOPLE who have the power vote their TICKET instead of their principles. If C. H. Ayers is elected SHERIFF, you will see Main street cleaned up right. If you think it NEEDS it, vote for him. The DRY Executive Com.

SOLO "CLEVELAND LETTER"

And Must Answer to Forgery and Grand Larceny.

Dayton, O., Oct. 23.—Earl Brandenburg, magazine writer and correspondent, who sold to a New York newspaper the famous Cleveland article in which the ex-president is quoted as favoring and predicting the election of Taft as against Bryan, was taken into custody here last afternoon by the police at the instance of Chief of Detectives James H. McCafferty, of New York City, on a charge of forgery and grand larceny.

Inasmuch as it is known that the grand jury in New York City has been investigating the reputed Cleveland document, it is surmised that the charge relates to Brandenburg's part in the publication of the article.

IN ELEVEN DAYS BEFORE ELECTION

Empty Doughbags Make the Political
Battle One of Rival Spellbinders
During the Days and
the Nights.

New York, Oct. 23.—The eleven days that remain before election will witness the greatest cyclone of political oratory that the island of Manhattan ever has known. There have been campaigns of more intensity and of deeper interest, but the early period of inactivity and apathy this year has caused a concentration of energy in the last two weeks that beats the records.

Parades, illuminations, bands, spectacular devices and showers of printed literature that prevailed in 1896, for example, have been laid aside this year for the arguments of statesmen and the shouts of spellbinders.

The human voice is the cheapest thing available in this day of empty doughbags. Hence, the battle in the metropolis is one of rival orators, holding forth with mightiest efforts of lung power on street corners, in dingy little halls, in political clubs, in circus tents, on the tails of carts, from trucks, and at times in the great assembly halls of the city.

Here's the Way They'll Do It.
An idea of what is being done may be gained from the following:
Republican oratory on tap each night.

One hundred trucks on street corners.

One hundred and fifty carts.

Two noonday meetings in Broadway.

Thirty-five clubhouse meetings at district headquarters.

Three large meetings in camps.

Meetings in two large halls, lower East Side.

Meetings in two halls, upper West Side.

Special meetings in fifteen halls in various sections.

Based on Cart-Tail Meetings.

Cart-tail meetings are the foundation of the republican campaign. The audiences are not large, the meetings are not spectacular and the speeches usually not very sound in argument or logic, but it is persistence that counts, the constant hammering away night after night.

In each of the thirty-five assembly districts in Manhattan and the Bronx there are two trucks sent out by the local organization. In a dozen or more districts the candidate for assembly or senate equips a truck of his own. The Republican club has joined in the game, and has a half dozen of its special carts trekking around the town.

Each one of these trucks carries a varied assortment of spellbinders, musicians and speakers and three horn tooters. The economical outfit gets along with a single cornetist or a fife and a drum. Some are reduced to a noisy bell ringer.

The cost of a truck varies from \$15 to \$25 per night, according to the number of musicians carried. Street corners are free of rent, and the electric lamp post furnishes all the illumination necessary.

But the absolute necessity is leather-lunged shouters, whose voices can be heard above the din of trolley cars and elevated railway trains. The crowds come and go, the speakers take ten-minute turns, and when pop-

THE "WHITE RIBBONERS"

WOMEN'S CHRISTIAN TEMPERANCE UNION MEETS IN DENVER, COLO.

CITY OFFERS FIELD FOR REFORM

Has a Reputation as a Wide-Open, Joyous, Frivolous Town—Long Been One of the Strongholds of the Rum Power.

Denver, Col., Oct. 23.—Whit ribboners from all over the United States are the guests of Denver today and commenced what promises to be one of the most interesting conventions in the history of the national Woman's Christian Temperance Union.

Although Denver has a reputation as a wide-open, joyous, frivolous town, and has long been one of the strongholds of the "demon rum," the visitors were given a hearty welcome and will be elaborately entertained during their stay in the "mile high" town. Even some facetious dealers in wet goods have paid their respects to the host of temperance women by displaying white ribbons and preying signs inviting the visitors to come in and "wet their whistles"—an invitation which won scornful and indignant sniffs from the passing disciples of prohibition.

Enthusiasm such as has never before marked a national convention of the W. C. T. U.—which one of the "liquor dealers" foresaid interprets as "Women Constantly Tormenting Us"—is manifested in the delegates in Denver today. From every nook and cranny of the country comes triumphant reports of battles fought and won and solar plexus blows delivered to the great cause. This enthusiasm is especially manifested by the delegates from the south, Georgia, Alabama, North Carolina, Mississippi, Florida, all answered to the roll call of the states now dry, or soon to assume that heavenly condition. Ohio has one of the largest delegations in the convention led by Miss Florence Engle, and the members are jubilant at the many victories in the recent local option elections in the Buckeye state.

The neighboring state of Kansas has sent its leading feminine temperance workers to the convention, and it is declared that the prohibition law, long moribund, is now being strictly enforced in the Sunflower state. From far away Maine, the first state in the Union to adopt prohibition, comes an echo of the recent victory of the republican candidate for governor, standing for the maintenance of prohibition as against the forces of resubmission. The Texas delegates report an entirely different party alignment, with the dominant democratic party pledged to submit state-wide prohibition to the people, while the liquor interests are allied with the republican party.

The Indiana delegates report great success in their efforts to curb the liquor traffic, and declare that all Hoosierdom will be dry as a bone in a few years. Governor Hanly has joined heartily with the Indiana prohibitionists in their plans. Local option has made a large part of Illinois dry and the women from that state declare that their campaign has only commenced and will end only when the liquor interests are driven from the last ditch in the plague-spot of Chicago. In the east, according to the delegates from that section, the fight is waging merrily, especially in Pennsylvania and New Jersey. The New England states are well saturated with prohibition sentiment, declare the Yankee delegates, and the "rum demon" will soon succumb. New York is admitted to be confirmed in its evil ways, but not beyond hope of ultimate reform.

The great fight of the coming year, declare the women, will be fought in the city of Washington. The leaders of the Women's Christian Temperance union perceive the great strategic importance of making the national capital a dry city, and plans will be decided upon at the present convention for furthering that end. It is admitted that the task will not be an easy one, and the brewers, distillers and liquor dealers also realize the importance of the fight, and will not submit without exhausting every means and influence at their disposal. Speaker Cannon is harshly criticized by some of the delegates as being the greatest obstacle to the success of their plans, and resolutions condemning his stand on the prohibition question may be passed by the convention.

Pictures of Eugene Chafin, the prohibition candidate for president, occupy places of honor in the national headquarters and assembly room, and the delegates will be urged to use their influence to secure a large vote for him.

A curious situation has been brought about by the stand taken by

The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every taint or corrupting element. In this way it cures bloating, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading teachers and practitioners of all the several schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

the Mormon church as the advocate of prohibition. The W. C. T. U. has long waged warfare on Mormonism, and the members took the lead in attempting to oust Reed Smoot, the Utah senator, from the national congress. Now that the Mormons have declared war against the liquor traffic, the women of the temperance union are considering a truce with that church. It is realized that the influence of the Mormon leaders will go far toward accomplishing the adoption of prohibition in Utah, Idaho, Nevada and other western states, where the W. C. T. U. has fought in vain.

COMPLEXION THAT LASTS

Harmless Preparation Better Than Paint and Powder.

You, dear madam, who who are now reading this paragraph, will be interested in this easy-to-make toilet preparation—you will be particularly interested if you do not approve of the use of powder and paint. We all realize that some aid must be given to the skin to keep the complexion clear, white, soft and velvety during the trying months of fall and winter. Eppotone is one of the best known aids to a beautiful complexion. It is comparatively inexpensive and it is easy to prepare. Get at your druggist's 2 ounces of Rose Water, 1 ounce of Cologne Spirits and 4 ounces of Eppotone. Take these home and put the Eppotone in a pint of hot water (not boiling) and after dissolved strain and let cool, then add the Rose Water and Cologne Spirits. This excellent face wash should be applied daily. It is harmless and its use cannot be detected, for it does not rub off or show. For preventing or removing chaps and roughness there is nothing so good as Eppotone.

GREAT "HUNKS" OF NOISE

(Continued from Page 1.)

driver says he is entitled to \$4 a night (union wages) and the musician shows his card with the scale salary of \$5 per engagement. Drinks and cigars are liberally distributed, and when the average meeting is over the cost is from \$60 to \$150 a night. This does not include the cost of advertising.

Organization means more meetings at a smaller cost; bigger attendances by least advertising, but with all the power and prestige of Tammany the speaking campaign, ably conducted, costs 5,000 cold American dollars every night. This does not include the expense of Madison Square garden and other big rallies.

Governor Hughes' "personal identification" law, which will operate in Greater New York on election day, disfranchises thousands of registered voters, according to the belief expressed today by Police Commissioner Bingham.

Bingham Wants to Know.

General Bingham has asked Corporation Counsel Pendleton for an opinion as to the duties of the police on November 3, when a large proportion of the voters will have been barred from getting their ballots because of lack of time to vote in accordance with the law within the eleven hours that the polls are to stay open.

Indications are that the law will prove unconstitutional, should it deprive any voter of his ballot, but Gen. Bingham, Superintendent of Elections William Leary, the election commissioners and the practical leaders of both political parties do not care to be put in the position of "locking the door after the horse has been stolen."

The close calculators of the bureau of elections have discovered that over one-half of the election districts of the greater cities have 600 enrolled voters and more. The voting period is from 6 a. m. to 5 p. m., or just 600 minutes, and it is admitted to be a physical impossibility for a voter to mark his ballot and either answer all the "personal identification" questions or sign the election rolls for a comparison of his signature with the one he made when he registered.

At least one-third of the election districts of the city, particularly on the lower East Side, the middle West Side, portions of the Bronx and portions of Brooklyn, have up to 1,000 voters on the rolls.

Here is the Conundrum.

Superintendent of Elections Leary has appealed to the attorney general for an opinion, while here is the conundrum framed by Gen. Bingham for the corporation counsel:

"1. If at the hour set for closing the polls a number of the electors were in the polling place before such an hour, who have not yet received ballots, appeal to the police officers to enforce their assertion of the right to vote, what shall the police officer do?"

"2. If after the hour set for the closing of the polls the election officials continue to deliver ballots to those who, although present at the polling place, had not up to such hour received ballots, and also continue to receive ballots from such electors, what action, if any, should the police officer take?"

In his third and fourth questions Gen. Bingham raises the same two points in behalf of the registered voters who are outside the polling place and unable to enter because of the lack of room at the time the polls close.

In his final legal nut Gen. Bingham asks for directions for his police should the election officials just prior to the closing of the polls distribute ballots to electors present before such hour at the polling place, either inside or without the building.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease. In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism, but now, at last, I can cure all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

DEPARTED FOR NEW HOME

Mrs. Dr. W. H. Bunn, Who Was Formerly Mrs. G. A. Given.

Mrs. Dr. Bunn was very pleasantly surprised at her home on East Eleventh street by a number of friends dropping in on Tuesday evening, October 20, the occasion being a farewell party in her honor.

Music and social converse waited away the time, and at a late hour refreshments were served. The lady was the recipient of a number of handsome gifts.

Mrs. Bunn left yesterday for her new home in Oklahoma City. Before her marriage, which occurred a few weeks ago, she was Mrs. G. A. Given, of this city, and a host of friends wish for her and her husband, Dr. W. H. Bunn, a prominent physician of Oklahoma City, many years of happiness.

GROUP QUICKLY CURED

Don't Let the Child Choke to Death While Waiting for the Doctor.

Hyomel, the miraculous, antiseptic, dry air treatment, will cure croup in either the first or second stages. Easily inhaled, even when the breathing is irregular, it reaches more promptly than any other remedy the terribly inflamed membrane of the windpipe. Its soothing balsams act immediately, the inflammation is allayed, and the swelling reduced.

"Not long ago our little boy, Walter, awoke in the night with a bad attack of croup. We allowed him to inhale Hyomel; he began to breathe easier, and in half an hour was fast asleep. I am glad to speak a good word for a remedy that will rob croup of its terrors."—Rev. George Sisson, pastor of M. E. church, South Londonderry, Vt.

Hyomel (pronounced High-o-mel) is guaranteed by the W. E. Bard Drug Co. to cure catarrh, coughs, colds, asthma, bronchitis and croup, or money back. A complete outfit, including a neat hard rubber pocket inhaler, costs only \$1.00. An extra bottle of Hyomel, if afterwards needed, costs but 50 cents.

THE "VANDERBILT CUP"

A SCORE OF FASTEST RACING CARS ENGAGED IN LAST DAY'S PRACTICE.

BIG RACE TAKES PLACE TOMORROW

Thousands of People Will Begin Congregating Tonight in the Grand Stand of the Long Island Motor Parkway.

New York, Oct. 23.—A score of the fastest racing cars in the world are today sweeping furiously around the great Long Island course, engaged in the last day's practice for tomorrow's Vanderbilt cup race. This year's contest for the cup promises to be the most successful road race ever held in America. Thousands of people will begin congregating tonight in the big grandstand of the Long Island parkway and at advantageous points along the route, ready to witness the start early tomorrow morning.

Numerous changes and improvements suggested by the recent sweepstakes race made to the course, including a new "sluway" under the track to connect the grandstand and the press stand. While, of course, all the twenty cars entered in the race have a chance of winning, the experts figure out that the real race of the day will be between Herbert Little in the Isotta, who won the motor parkway sweepstakes; Louis Strang, in the 115-horsepower Renault, which made a world's record of 100 miles in 72 minutes 56 seconds at Ormond last winter, averaging 82½ miles an hour, and George Robertson in the locomobile, which made the fastest lap in the 1906 Vanderbilt cup race.

That there will be a far greater crowd present at the Vanderbilt cup race than on the opening day is shown by the big demand for boxes and seats, and the management announces that nearly all of the choice positions have already been taken. Among the prominent box holders will be William K. Vanderbilt, Harold Vanderbilt, Harry Payne Whitney, Robert Graves, who has three boxes; B. F. Yoakum, who has two; Commodore F. G. Bourne, Anton Hoppenyl, Harry P. Colling, J. Adolph Nollenhauer, J. H. Dick and August Belmont.

About eleven miles of the course is over the magnificent cement road of the Long Island parkway, and the excellent highways in that section of Long Island will be used to complete the course.

The race will start, as usual, soon after daylight, and the grandstand, which is located on a portion of the new cement way, where the spectators can get the finest view of the cement course, will be reached directly by special trains on the Long Island railroad. A branch of this road runs directly from Long Island City to Garden City, which is about four miles west of the beginning of the course.

Never before have such complete arrangements been made for the accommodation of visitors to an automobile race. There are eleven miles of parkway space on either side of the cement way, under the control of the Vanderbilt Cup commission. Heavy steel wire fences line the parkway from beginning to end, so it will be impossible for cars to pack at any particular spot.

The course affords one of the finest successions of roadway to be found in the country for such a race. It will be possible for the cars, it is said, to attain an average speed of twenty miles an hour. There are an illis of considerable length or on steep grades, while most of the way is slightly down grade. The other half is practically a dead level, including eleven miles of a specially laid cement highway, more than twenty feet wide at its narrowest point, banked and ditched upon all turns, with easy grades approaching railway and public highway crossings. The rest of the circuit is made up of state and county roads, which are in the trim of condition, and over which the racing cars can travel equally as fast as they can over the cement highway.

There are eight sharp turns over the state and county portions of the course, but the parkway turns are all beautifully rounded and banked. The surface of the cement is as smooth as a city concrete street, and the possibilities for high speed are quite enough to satisfy the ambition of the most daring racing driver in the world.

After leaving the grandstand the racers will have a very fast run over the cement for six or eight miles eastward to Bethpage, where the parkway joins what is known as the Round Swamp road, which runs north on a slight grade to the beginning of the Plainview road. Following this road the car continues on north to its intersection with a new extension of the Jericho turnpike. At this

is he who buys paint because it is cheap. Quality should be the first consideration. A paint that covers twice as much surface as another paint is worth twice as much, and if it wears twice as long it is worth four times as much plus the cost of the second painting. Don't look for cheap paint. Look for quality. You will find it in

PATTON'S SUN-PROOF PAINTS

point the course bends directly west, around what has been dubbed the "Flatiron" turn.

The cars have a very speedy stretch, nearly all down grade, westward, along the Jericho turnpike extension to Jericho, one of the turns on the 1906 Vanderbilt cup course. From there the new course is over the old Jericho road to its intersection with the Westbury road, thence south across a flat country to the Hempstead plains, thence to the beginning of the cement way and eastward over this to the grandstand, the start and finish.

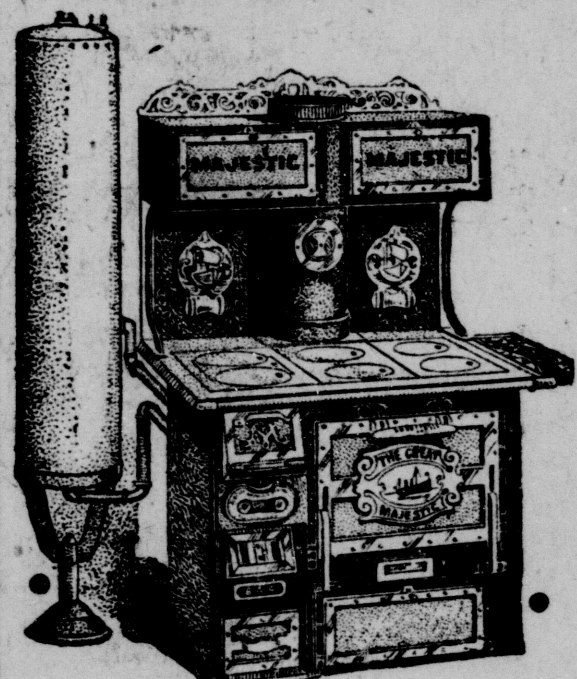

Near the beginning of the parkway portion of the new Vanderbilt cup course is the famous Meadow Brook Hunt club. To the west of this, along the Old Country road, is the town of Mineola. West of the town and about four miles from the entrance will be the headquarters of the Vanderbilt Cup commission. It is a short run from this hostelry down the Old Country road to the cement parkway, and along this to the grandstand, so it will be possible for visitors to the cup race to remain, as heretofore, in the Garden City hotel overnight and travel to the grandstand by motor early in the morning.

Complete arrangements have been made for guarding the entire course, and little or no trouble is anticipated on this score because no part of it passes through any settlement where a large crowd of spectators might gather. In fact, the four sides of the course are much more isolated than has been the case in any previous Vanderbilt race.

THE "CIRCUS PREACHER"

HE WAS GIVEN THIS NAME ON ACCOUNT OF HIS SPECTACULAR METHODS.

RESIGNED CHARGE IN PITTSBURG

Will Assume Charge of Brooklyn Congregation Tomorrow—Smoky City Lost Its Most Sensational Minister.

Pittsburg, Pa., Oct. 23.—So far as Pittsburg is concerned, Dr. S. Edward Young, who recently resigned the pastorate of the Second Presbyterian church, to go to Brooklyn, is no more. Dr. Young, who was known as the "circus preacher," because of his spectacular methods, will assume charge of his Brooklyn congregation tomorrow and the Smoky City has lost the most sensational minister it ever had in its midst.

The resignation of Dr. Young was not brought about without a fight that threatened to disrupt the presidency. Every possible influence was brought to bear to keep him in Pittsburg, but without success. Dr. Young declared that he had been called to Brooklyn by God.

Charges and counter charges were made by the majority and minority members of the congregation. In a speech Dr. Young asserted that it was the voice of God calling him to the Brooklyn charge, while the majority membership, who had offered him every inducement to remain here, declared that the voice of God told him to stay. The minority membership was also conspicuous at the meeting and declared that they didn't care what the voice said, so long as Dr. Young went to Brooklyn or some other place.

After the members of the presbytery had voted to release Dr. Young there were speeches of sincere regret from many of the ministers present over the departure of Dr. Young.

In an interview, after his resignation had been accepted, Dr. Young said:

"I believe and have believed all along that the voice of God is calling me to the Brooklyn church, and I am pleased that the presbytery has released me, although it breaks my heart to leave the friends I have made here during the past eleven years."

Asked regarding the charges that were made against him by the minority membership, Dr. Young said: "My answer is in the eulogies that you have heard from these members of the presbytery. It is but natural that I should have made enemies during my stay here. Everyone makes them. When I came into this field I believed it was my duty to practice what my enemies have since termed 'circus methods' to bring the sinner into the fold. That was the only manner in which to reach these classes—the frequenters of the low world, the men who never went to church, and the men, who, traveling from city to city, had no particular incentive to go to church. It was these people that we reached out for and we saved hundreds and hundreds of them."

In Brooklyn I will probably practice an entirely different line of work. There, the conditions are different. The Bedford church is located in a part of the city where I will draw my congregations from the intellectual classes—the educated men and women and the people who can appreciate a higher line of reasoning. That is the work I am going into now. I have every assurance from the members of the Bedford congregation that the present unfortunate trouble here will have no bearing on my standing.

"Arrangements are being made to commence at once the erection of a magnificent church for the Bedford congregation in Brooklyn. I have had the plans submitted to me and approved them. The only thing that I changed was to make the entrance wider. The allegation that I am going to Brooklyn for financial reasons is false. I would be far better off financially by remaining here."
